THE BOLD LOOK
OF **KOHLER**®

Life without labor is guilt. Labor without art is brutality.

- John Ruskin

and closets that carry the Kohler mark are well designed and well made, to the last minor detail. If you use colored fixtures, Kohler colors are pure, uniform, harmonious. If you prefer white, Kohler white is as immaculate as freshly laundered linen. Kohler faucets and handles and

plumbing contractor. Actual estimates will show you that an all-Kohler installation costs surprisingly little. Write for Booklet A-5, which has color schemes, floor plans and various vital facts on good plumbing. . . . Kohler Co. Founded 1873, Kohler, Wisconsin. Branches in principal cities. Look for the Kohler mark on every fixture and fitting.

Kohler Sycamore sink with bidet, equipped with bidet fixture.

Kohler Waltham water-saving mixing faucet with third water supply.

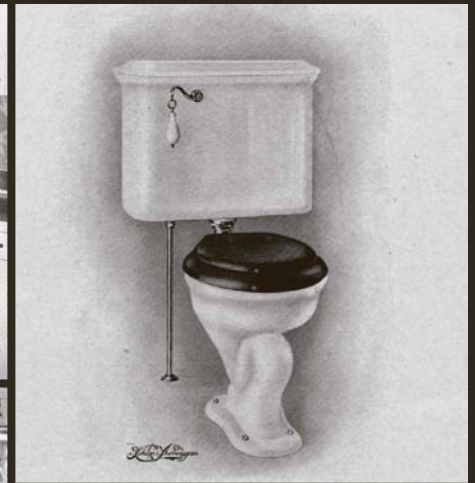

escutcheons are advanced in design—all the mechanical parts are sure, silent and safe. Those who work on Kohler products have the true tradition of craftsmanship. The beautiful village of Kohler is an inspiration to excellence. The men who do each intricate detail of manufacture work on rigid engineering requirements—and with the earnestness of high art.

An all-Kohler bathroom—at the same cost. Quality is not a matter of money—but of knowledge and vision. Even the small home must have the finest fixtures

ELEVEN IMPORTANT POINTS

- 1 Kohler designs are decorative, purposeful, correct.
- 2 *Patented*—fused with an everlasting bond . . . smooth, gleaming surface.
- 3 *Fit*—close—uniform with a smooth, lasting glass.
- 4 *Kohler colors* are soft, durable, lasting. The white is a perfect white.
- 5 *Metal fittings* mark the fixtures in style, character and quality.
- 6 *Make of finest materials* . . . show craftsmanship and care.
- 7 *The cost of Kohler products* are next year's new ideas in plumbing.
- 8 *Kohler quality* stands as *finest and lasting*, *never fails*.
- 9 *Kohler quality* costs *no more* . . . and saves money later.
- 10 *Handled and installed* by qualified plumbers.
- 11 *Backed by an entire community* . . . beautiful Kohler Village.

KOHLER OF KOHLER

WHEN A FELLER NEEDS AN ARCHITECT

Plumbing... and so on, and so on! What a help it is to have a few experts among your fellow fellers when you come to that difficult, intricate adventure—building a home.

Get an architect in to a tight corner and ask him a few pointed questions. He'll tell you that quality always pays, that no budget is too small to cover good design and good service. He'll show you that longevity at critical points of construction is a life insurance policy, and a job finished is paid, in many ways, to be right.

From its small beginnings, the bathroom speaks volumes about your way of living. The true story of your character and confidence is told in your facilities for sleeping.

Often you find Kohler fixtures and fittings in the homes of architects, real estate men and others who have more about plumbing than the man on the street. They are acquainted with the fine lines and better looks of Kohler ware.

Of course, Kohler makes the most beautiful and durable fixtures in the bath. Kohler's mark means thoroughness through design, that Kohler engineers and workmen put a craftsman's pride in their products.

1 Kohler designs are distinctive, personalized, correct.

2 Kohler's standard with an unobstructed bowl... brings the plumbing, plumbing perfect.

3 Kohler's clean-lined, modern with a flat, bottom, square design... makes it a perfect white.

4 Kohler's fittings match the fixtures, in style, character and quality.

What John Michael Kohler saw in 1883 when he looked at a cast-iron horse trough was the bathtub that launched a global plumbing company. That pioneering spirit of ingenuity – the kind that sees a bathing revolution in a horse trough – has defined Kohler Co. from its earliest days. A visionary, John Michael Kohler understood the importance of innovative design and an uncompromising commitment to craft and quality. After four generations, we remain a family-owned company with diverse international businesses and over 26,000 products and 13,000 patents to our name. Still leading the industry in innovation and design. Bolder than ever.

Historical Highlights

Form and function. We've been combining the two, never sacrificing one for the other, since 1873.

1883

The first KOHLER® bath is made from a cast-iron horse trough and, as the story goes, sells for 1 cow and 14 chickens.

1927

Using new technology, Kohler is the only company to offer cast-iron and vitreous plumbing products in matching pastel colors.

1965

Bright, lively accent colors are added to the KOHLER color palette, another industry first.

1911

We design the first bath in the industry that features an apron, establishing Kohler as a leader in design and innovation.

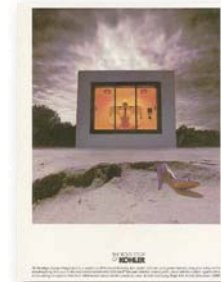

1929

A design exhibit at the Metropolitan Museum of Art features KOHLER fixtures in Black.

1977

Kohler presents Environment, the world's first environmental enclosure able to simulate sun, gentle rain and warm breezes.

1987

The Tea-for-Two® bath and complementary Souris® sheetflow bath spout receive the Governor's New Product Award.

2001

Kohler launches the iconic sōk® overflowing bath, garnering a significant number of design awards.

2010

The Elevance® Rising Wall bath, part of our Aging in Place product line, offers bathers greater accessibility.

2000

The flagship Kohler Waters Spa opens its doors for business in the Village of Kohler.

2008

VibrAcoustic® sound vibration technology revolutionizes the way people think about bathing.

2010

The first KOHLER enameled cast iron BubbleMassage™ baths combine durable beauty with massaging bubbles.

Explore the latest in home spa bathing with Kohler, the only bathing manufacturer in the world to own and operate an award-winning water spa. Our expertise in hydrotherapy allows us to create truly unique experiences that help stimulate the senses and bring the mind and body into balance. Whether you love a deep soak, the feel of water rushing over your body, or the sensation of being immersed in color and sound, you'll find your experience of choice here. We invite you to take a look and discover your bathing style with Kohler.

Also, you'll find great design ideas for the bathroom at [KOHLER.com/BathroomGallery](https://www.kohler.com/BathroomGallery).

Why KOHLER®?

Since 1883, people have been choosing KOHLER bathing products for their homes. After so many years, we're pretty sure we know why. It comes down to how we approach each product. For us, every bath we design is a measure of the standards we set in innovation, performance and quality. Every bath we manufacture is evidence of our commitment to you. So year after year, we deliver incredible new designs and hydrotherapies.

Experts in Spa Wellness

While John Michael Kohler could not have known all the benefits of hydrotherapy when he introduced his first bath, he did recognize water's ability to refresh the body and spirit. We've taken this basic idea and applied the expertise of our human-factors specialists and hydro-massage therapists at Kohler Waters Spas in Kohler, Wisconsin, and St Andrews, Scotland, to create holistic, spa-based bathing experiences that soothe and stimulate, calm and energize your entire being.

Award-Winning Design from Concept to Product

We've been perfecting bath design inside and out for nearly 130 years. In order to bring you baths that look beautiful in your bathroom and, more important, feel wonderful to sink into, our designers, engineers and ergonomics specialists work together to get every angle just right. Our baths have to deliver timeless style, amazing comfort and lasting value to be inscribed with the name KOHLER.

KOHLER Enameled Cast Iron

Nothing makes an enduring statement of innovative design, lasting beauty and timeless craftsmanship in your home like KOHLER enameled cast iron. A thoroughly modern choice, it is made in part with recycled material. And while other trends come and go, few materials can match cast iron's strength, style and soul.

A Leading Innovator in Hydrotherapy

Every day, we study the movement of water, tailoring its effects on the body to bring you the most pleasurable and beneficial water treatments we can. Based on our research, we've created five distinct hydrotherapies that shape and move water and air, even sound, over and around your body. Customizable and truly unique, our hydrotherapies help you create your own personal home spa and enhance your sense of well-being.

Experts in Spa Wellness

KOHLER *Waters* SPA®

At Burr Ridge – Illinois

At The Old Course Hotel – Scotland

KohlerWatersSpa.com

Kohler Waters Spa

Every day at Kohler, we have the luxury of seeing firsthand the healthful effects of water treatments. Kohler Waters Spa, a top-ranked spa with three locations, is our own unique resource for exploring the latest discoveries and trends in wellness and hydrotherapy. Our designers and engineers collaborate with Kohler Waters Spa experts in designing our bathing products so you can bring the benefits of hydrotherapy home.

“Focusing on one’s own wellness is the best gift you can give yourself and those around you. It is critical to a balanced and happy life.”

Director – Kohler Waters Spa

Enhanced Well-Being

Our five hydrotherapies harness water's natural ability to carry heat and sound vibration to the body for enhanced well-being. Depending on your choice of hydrotherapy, you may enjoy some of the following spa treatment benefits in the comfort of your home, so you feel centered and energized – your best self.

Renewed focus

Re-energized senses

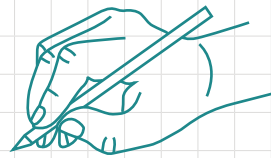

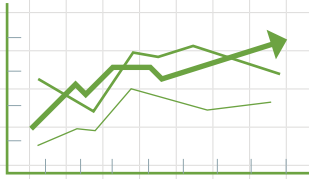

Reduced muscle tension

Deep, meditative relaxation

Enhanced overall sense of well-being

Design Awards & Innovations

Research & Development

Concepts & Sketches

3-D Modeling & Prototyping

Research & Development

Research and development is where it all begins for us – understanding our customers' needs, studying wellness and design trends, drawing on technological advances in science and industry, and exploring new materials and technologies.

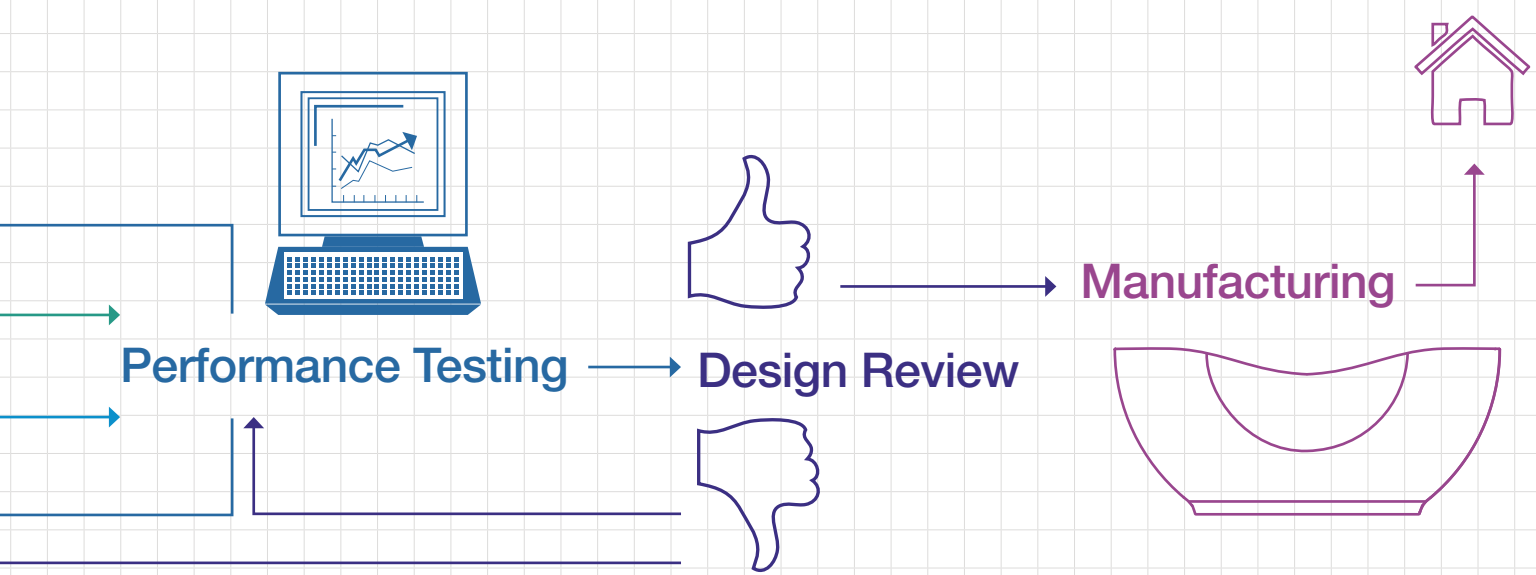

Concepts & Sketches

Armed with the latest research, our teams of international designers at design studios in Kohler, Paris and Shanghai begin sketching concepts for baths that deliver new levels of comfort and convenience and push the envelope on design.

3-D Modeling & Prototyping

Here's where our ergonomics engineers get involved. Having worked to understand the natural position of the body in its most relaxed state, Kohler engineers use computer models and mock-ups to help shape each bath to fit the 5'4" as well as the 6'2" bather.

We believe your bath should truly delight you at every turn, inside and out. To create baths that do just that, we take a holistic approach to bath design at Kohler, bringing together a team of our best industrial designers, engineers and human-factors experts. Together, they ensure that our baths deliver beautiful style, an incredibly comfortable fit and a water experience to suit your individual preference.

Performance Testing

Our domestic and international test labs perform hundreds of tests and measurements from cycle testing to stain-resistance testing. Third-party evaluations by IAPMO* help ensure that our labs are compliant with the ISO** Guide 17025 for calibration and testing laboratories.

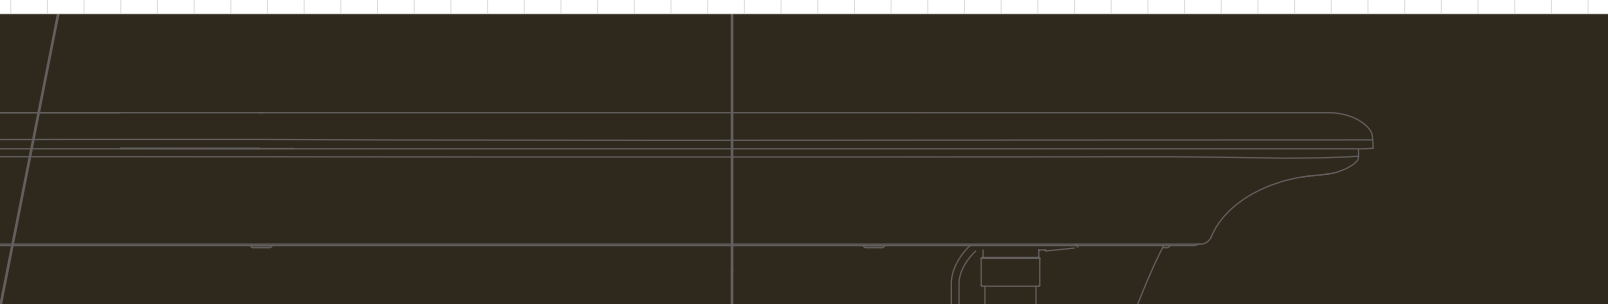

*International Association of Plumbing and Mechanical Officials
 **International Organization for Standardization

Design Review

At various stages in the process, each design is reviewed by our executive team to ensure that each product represents the KOHLER® brand and stays on the leading edge of design and innovation.

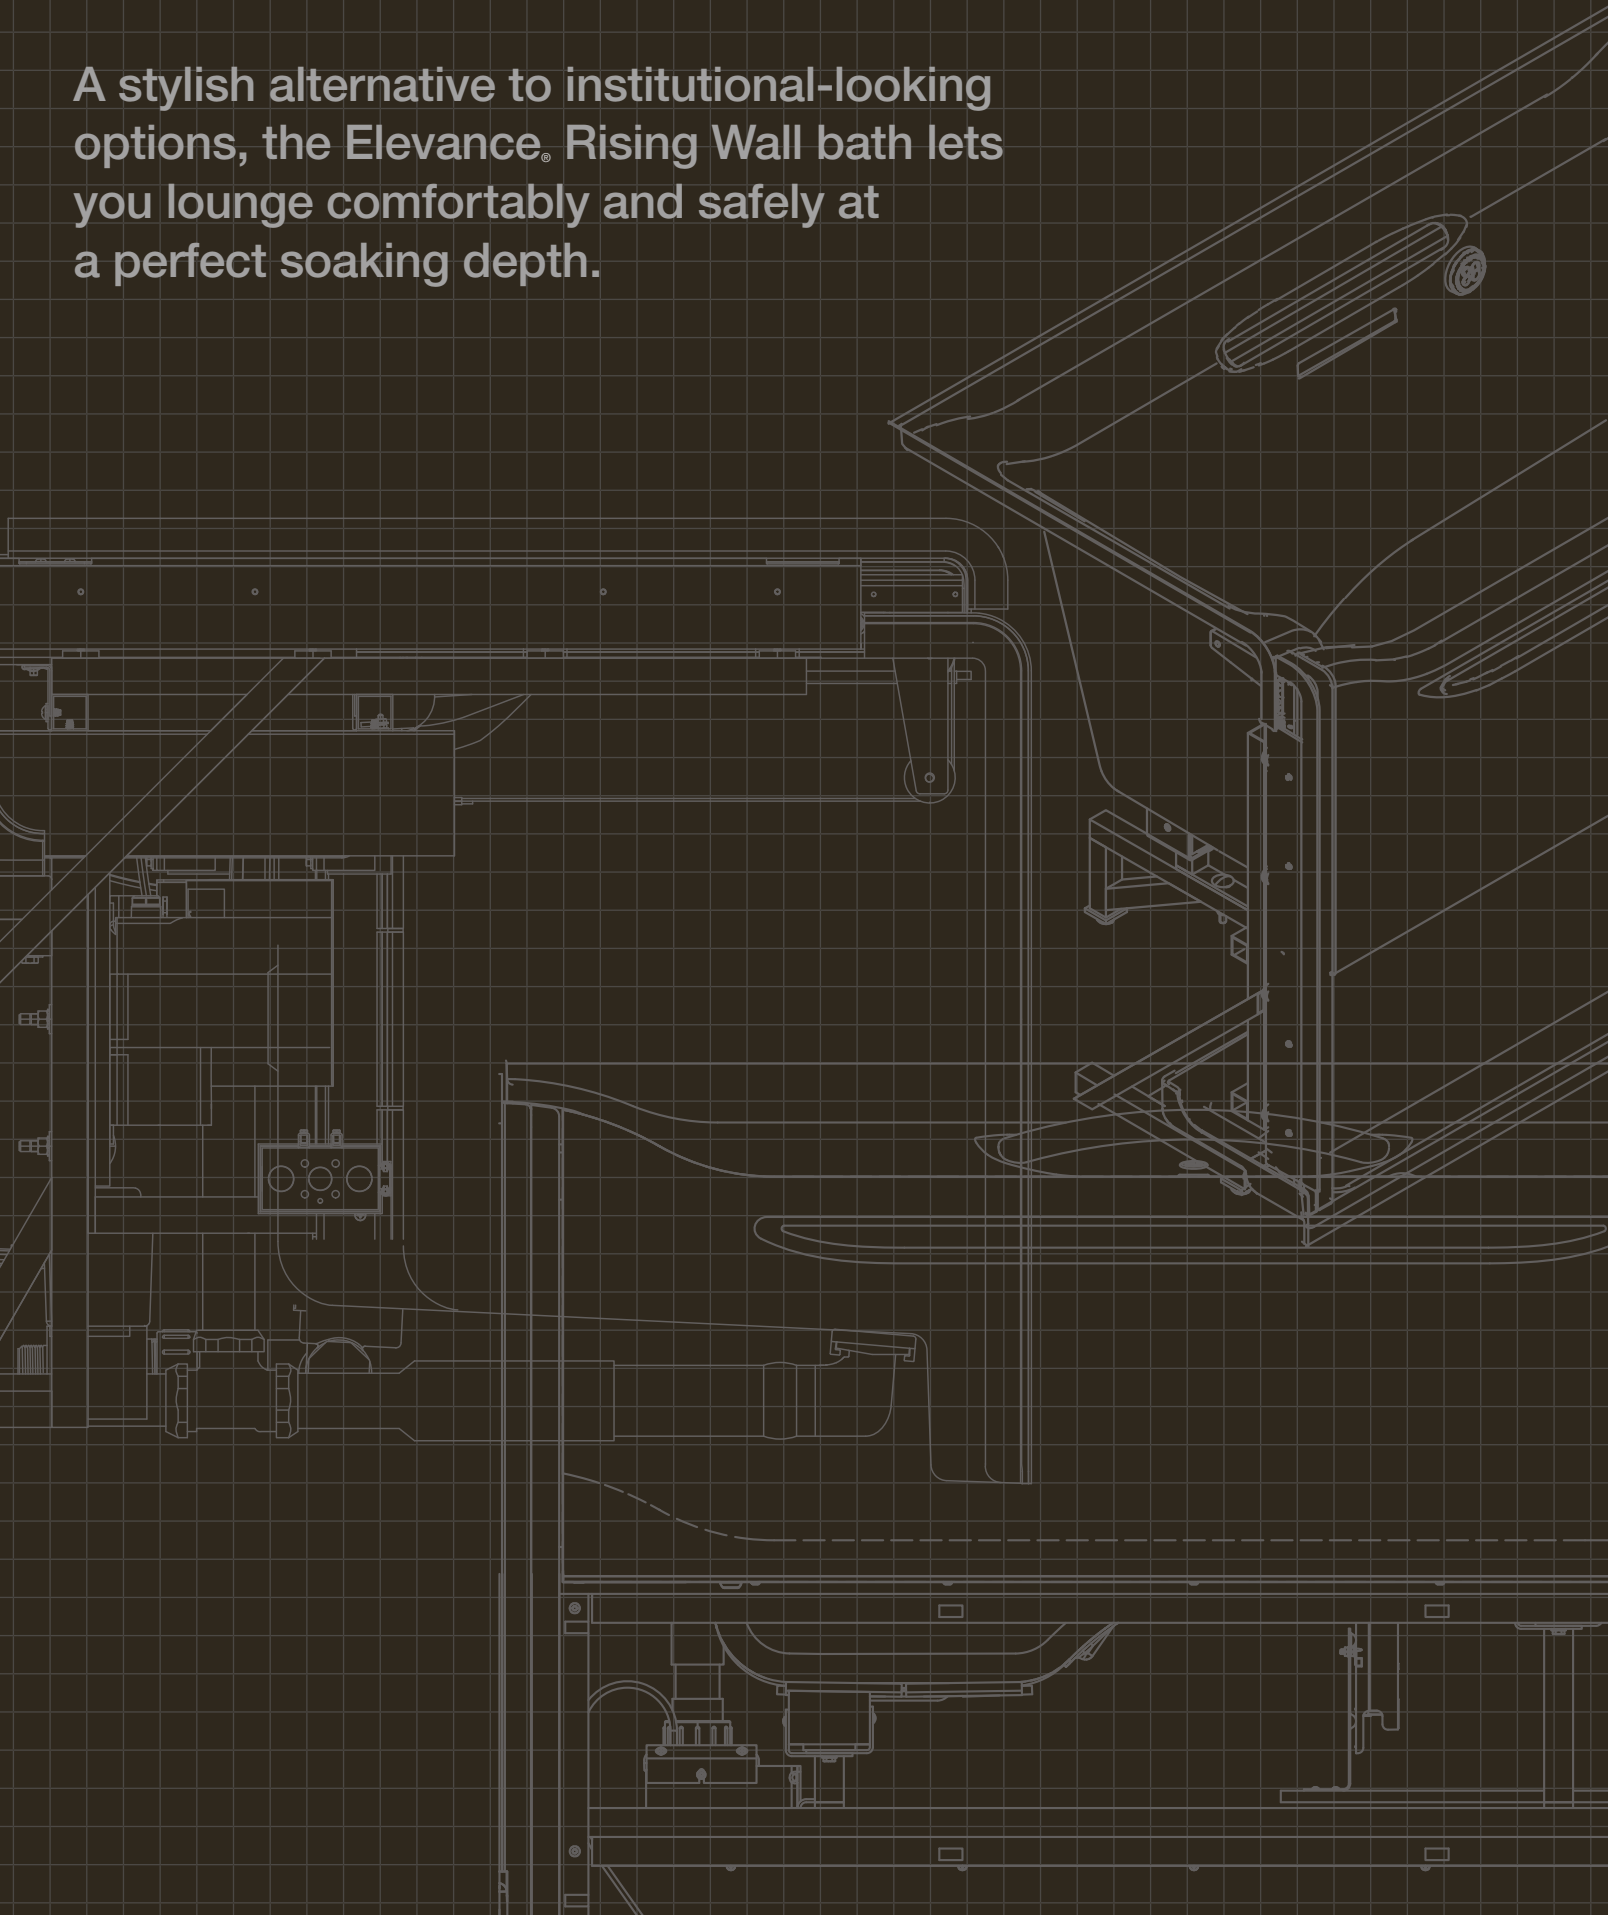

Manufacturing

We manufacture our fixtures and faucets in advanced facilities located in 16 countries. Kohler manages every step from concept to end product with the goal of creating award-winning products that bring beauty and comfort to life.

Innovative Design

A stylish alternative to institutional-looking options, the Elevance[®] Rising Wall bath lets you lounge comfortably and safely at a perfect soaking depth.

Elevance

[KOHLE.com/Independence](https://www.kohler.com/Independence)

Comfortable Fit

The Elevance[®] Rising Wall bath's soaking depth, together with the footwell and comfortable contoured back, allows you to lounge in a relaxing, deep soak instead of sitting upright. The extra-wide opening and chair-height seat let you enter and exit the bath safely and comfortably.

Smart Design

The rising wall lifts with just one hand – with less effort than lifting a half-gallon of milk. It locks into place easily, and two watertight seals inflate to prevent leaks. The bath drains in less than two minutes. Simply tap the drain with your toe and lightly touch a secondary drain on the rising wall.

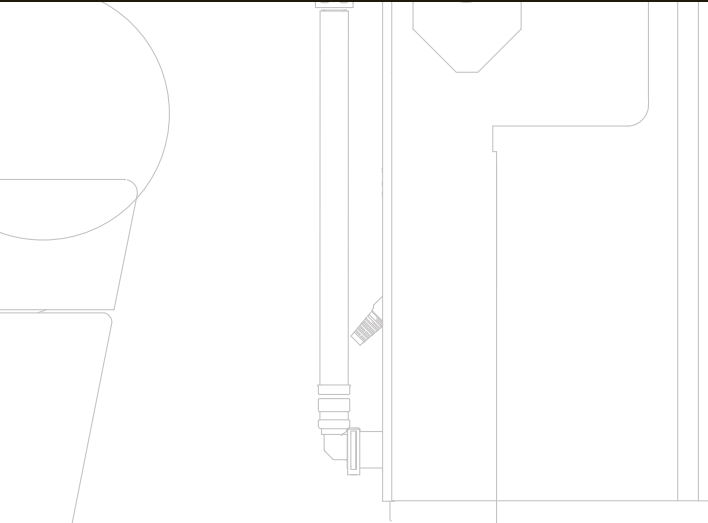

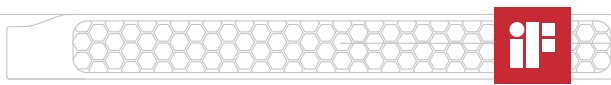

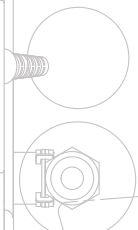

Soothing Water

The unique waterfall fill eliminates the need for protruding spouts, while optional BubbleMassage[™] technology creates a blissful experience with soft bubbles. Ensure your ideal temperature by testing the water in the footwell before you lift your legs into the bath.

Design Awards and Highlights

Recognized for innovation and design excellence, KOHLER® kitchen and bath products have received industry and media awards as well as celebrated design awards. We've designed thousands of products and registered thousands of patents, and we remain committed to bringing beautiful, purposeful design to life.

Strength. Style. Soul.

The perfect house is hard to come by. And when you find it, there are a thousand things you'll change to make it the home you've always imagined – a home that holds up for generations. But these days, that's no small challenge. It's tough to find things that are made to last and don't go out of style. The options are too often designed to be temporary instead of timeless. With KOHLER® enameled cast iron, there is no trendy disposability. It's made in part with recycled material and is guaranteed for life.* Just strength, style and soul.

Crafted for Life

KOHLER® enameled cast iron is singular in character, creating one-of-a-kind pieces that will last for generations. It withstands whatever you and your family dish out, from kids' toys banging around in the bath to dropped shampoo bottles. And our Lifetime Limited Warranty guarantees* it will not chip, crack or flex – yet it's soft and reassuring to the touch.

*KOHLER enameled cast iron baths installed in North America carry a Lifetime Limited Warranty for as long as the original consumer purchaser owns his or her home. For complete warranty information, visit KOHLER.com/Warranty.

A Leading Innovator in Hydrotherapy

VibrAcoustic

Collaborating with a renowned sound therapist, we designed four distinct compositions, layering calming instrumental arrangements heard above the water with sweeping acoustic vibrations experienced within the water.

Solitude

Universal tones and rhythms evoke the constancy of tides and steady the breath.

Letting Go

Music rises and gently dissipates leading the body into a meditative repose.

Awakening

Upbeat soundscapes with an emphasis on melodic guitar stimulate the mind and body.

Transcendence

Cohesive yet deliberately random notes invite the mind to wander, to simply be.

VibrAcoustic® hydrotherapy adapts the science of sound therapy, helps to ease stress and enhance well-being, and creates an environment of harmony both invigorating and restful. Music and sound vibration completely surround you, permeating the core of your body. Your breathing and heart rate actually begin to synchronize with slow yoga-inspired rhythms. The effect is truly irresistible relaxation.

KOHLER.com/VibrAcoustic

What will I experience?

Designed to relax both the mind and body, VibrAcoustic hydrotherapy balances sound vibration that soothes the body at its very core with preset, original compositions that engage the mind. Using steady beats, the sound vibration and music encourage the breath and heart rate to synchronize with a slower rhythm. The body and mind are led to an oasis of calm repose.

How does it work?

VibrAcoustic panels broadcast sound waves that travel through the water and gently resound in the body. Strategically positioned throughout the bath to provide the most beneficial effects to the entire body, these panels are concealed under the shell of the bath for a smooth, uninterrupted bathing surface. Music and optional chromatherapy are choreographed to work in unison with the VibrAcoustic panels for a holistic approach to profound relaxation.

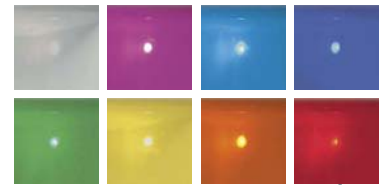

What else should I know?

An easy-to-use, conveniently located user interface controls all VibrAcoustic features and affords bathers the option of listening to the four compositions or their own music. Visit us at KOHLER.com/VibrAcoustic to preview each of the four original compositions – Solitude, Letting Go, Awakening and Transcendence – created in collaboration with a renowned sound therapist.

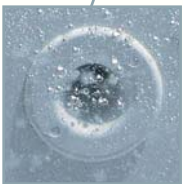

Effervescence

Effervescence hydrotherapy caresses your body in a warm, slow-moving embrace. Water and air gently travel through unique ports designed to pamper your body with champagne-like bubbles that cling to your skin. Creating a serene and meditative environment, Effervescence envelops your body with sensory delight.

Chromatherapy Colors

KOHLER.com/Effervescence

What will I experience?

Small, soothing bubbles travel slowly along the body, surrounding the bather in a warm embrace. A heightened awareness of the senses occurs. The skin feels replenished. The result is a sensory retreat.

How does it work?

Unlike a standard whirlpool, Effervescence hydrotherapy features discreet ports that deliver gentle, caressing bubbles. These ports have been carefully positioned along the bath to achieve optimal coverage of the entire body.

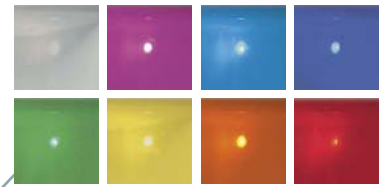

What else should I know?

An in-line heater is included to help ensure a comfortable, consistent water temperature. Optional chromatherapy, a sequence of soothing colored lights, and a floating remote control allow bathers to easily and conveniently customize the experience.

BubbleMassage

BubbleMassage™ hydrotherapy is designed to deliver a holistic, full-body experience. Warm air is pushed through the 360-degree staggered airjet design, creating thousands of bubbles. Your entire body is thoroughly massaged, while the random motion of bubbles traveling along your body to the surface helps center and clear your mind. And, you can tailor the intensity of each bathing experience, from a soothing caress to a vigorous massage.

Chromatherapy Colors

Create rejuvenating bathing experiences at home with bath salts and oils from our online boutique at KohlerWatersSpa.com.

KOHLER.com/BubbleMassage

What will I experience?

Bubbles completely surround and massage the body at your preferred level of intensity, helping to center the mind and stimulate the release of muscle tension. Depending on the choice of airflow setting, the experience is anything from a gentle bubble action to an energizing massage.

How does it work?

The proprietary 360-degree airjet system fills the bath with thousands of bubbles. Staggered jets push bubbles into the center of the bath, creating a balanced, all-encompassing body massage. A variable speed blower provides a range of airflow settings to increase or decrease the intensity of the massage for a complete, comfortable and customizable experience.

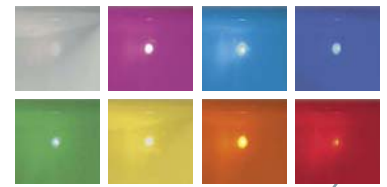

What else should I know?

The Zones of Control™ feature, available on select baths, allows bathers to choose a complete body massage or one that focuses on the back, legs or feet. BubbleMassage technology delivers a constant level of intensity or, with the surge feature, creates a repeating sequence of increasing and decreasing intensity. Automatic or manual purge cycles ensure an exceptionally hygienic and easy-to-clean system. And, with BubbleMassage baths, bath oils and salts may be used.

Whirlpools

Whirlpools are engineered to maximize the unique benefits of targeted hydro-massage and, similar to a deep tissue massage, can potentially increase blood flow. Delivering powerful directed massage, our whirlpools offer real solutions for unwinding and revitalization. KOHLER® whirlpool jets rotate for precise positioning and adjust for intensity, customizing each bathing experience.

Chromotherapy Colors

KOHLER.com/Whirlpools

What will I experience?

Enabling the individual to personalize the experience, KOHLER® whirlpool jets adjust for directional positioning and massage intensity. This allows bathers to massage individual stress points along the body, helping to release tension and soothe muscle soreness.

How does it work?

Optimally positioned whirlpool jets provide targeted hydrotherapy with an ideal mix of air and water. Each jet can be rotated for targeted, effective hydro-massage, while the outer ring gives the user complete control over water flow volume. Our variable-speed control, available on select models, allows bathers to choose between intensity settings for a customized bathing experience.

What else should I know?

Enhanced options are available on select models. An in-line heater maintains the water temperature and helps ease tense muscles. The Bodyssage backjet system targets pressure points along the spine and across the shoulders, encouraging deep breathing. Two adjustable neckjets cradle the neck and pulse alternately from left to right, helping to decrease tension. The optional floating remote control offers greater convenience.

Baths

Baths. Sometimes, a simple approach is the best. Uncomplicated and well-conceived. We engineer our baths so that nothing comes between you, your bathing preferences and all-encompassing comfort. Our baths are ergonomically crafted to gently support the natural curves and angles of the body. For the bathing purist in each of us, KOHLER® baths help keep life simple.

Essential Details

Here's a closer look at the technology systems that drive KOHLER® hydrotherapies. Each of these technologies has been developed by our own design and engineering teams to bring you the best in hydrotherapy options and experiences.

Whirlpool Jets

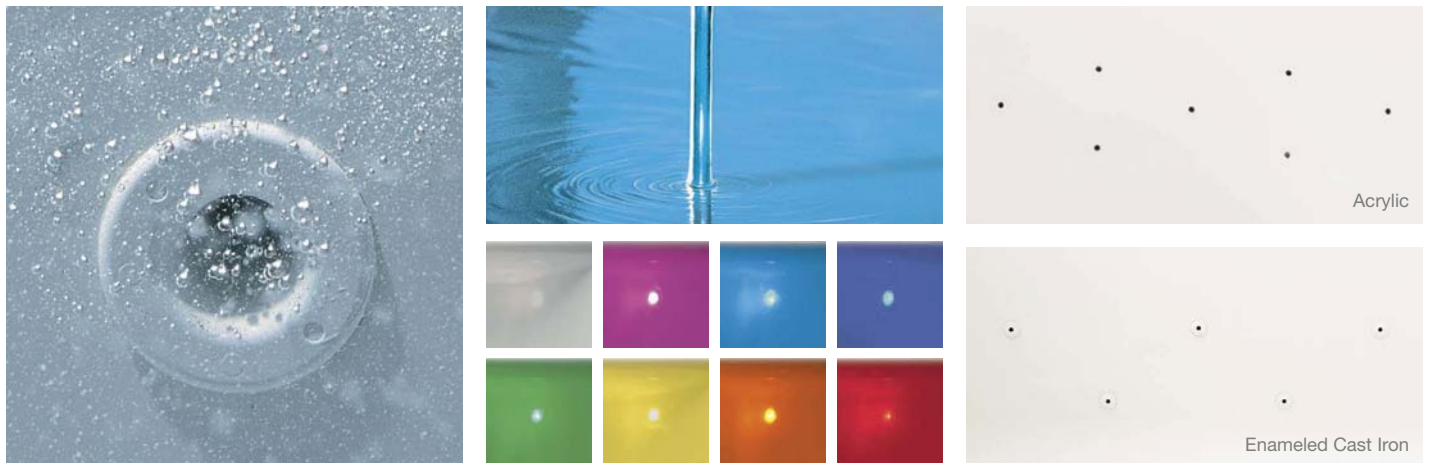

KOHLER whirlpool jets are individually adjustable to target specific areas of your body. Delivering the optimal mix of air and water, they fully adjust for water flow intensity and directional control.

Backjets

On select models, the Bodyssage backjet system, featuring ten KOHLER backjets, loosens tension throughout the back and shoulders and encourages deep breathing. Our backjets fire two by two, targeting the lower back first and moving all the way to the shoulders. In this way, our backjets simulate the natural progression of a hands-on massage.

Neckjets

Available on select models, a factory-installed pillow with two integral neckjets pulses alternately from left to right for a stimulating, stress-relieving massage at the back of the neck. Customize your experience by adjusting the pulse and water flow to your level of comfort.

Effervescence Technology

A series of ports, optimally located, distributes champagne-like bubbles that are comprised of the perfect combination of air and water, allowing them to cling to and caress your skin. The result is a sublime, all-encompassing experience.

Chromatherapy

A color experience designed to enhance bathing, this 8-color spectrum washes over the body in a repeating one-minute sequence or may be programmed to rest on any one of the colors, to help create a soothing or energizing ambience.

BubbleMassage™ Airjet Design

This proprietary design ensures comfortable and consistent bubbling action, making KOHLER® BubbleMassage the ultimate air bath experience. The 360-degree staggered airjet design, along with targeted foot and lumbar airjets, delivers a full-body massage.

Enhance Your Comfort

We offer various accessories to make your bathing experience even more relaxing and tailored to your preferences. A pillow and footstop provide added comfort and are available in the most popular KOHLER colors. Bath and whirlpool trim options, drains and under-mount installation accessories allow you even more flexibility for customization. To learn more about our bathing accessories, visit KOHLER.com/Bathing.

Removable Pillows

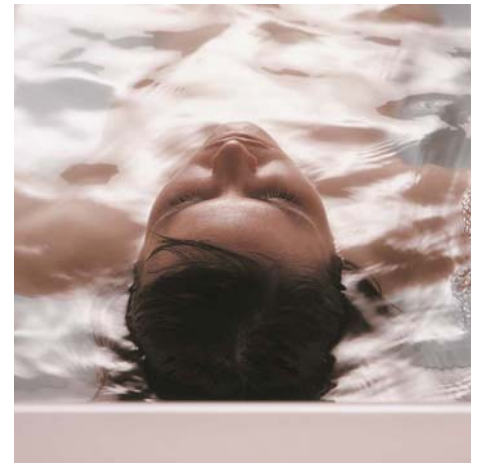

The optional pillow (K-1491) provides a comfortable addition to any KOHLER® bath, whirlpool or BubbleMassage™ bath. Suction cups hold the pillow firmly in place, yet allow it to be removed easily for cleaning. It is available in White, Almond, Biscuit and Black Black™ to coordinate with any KOHLER color.

Removable Footstops

An optional footstop (K-1601) can be placed at the base of the feet or under the thighs to comfortably adjust your bathing position in larger basins. Available in White, Almond, Biscuit and Black Black, it coordinates with any KOHLER bath, whirlpool or BubbleMassage bath.

Clearflo Slotted Overflows

Kohler offers you a wide array of features, including the Clearflo slotted overflow drain that affords up to an additional 1½ inches of water depth. Recommended overflow/drain combinations for each bath are listed in the feature charts on pages 124-181. To view our complete selection of drains, visit KOHLER.com.

Electronic Controls

All hydrotherapy features may be independently controlled with ease. Some models include a lighted keypad and floating remote control to add further customization and convenience.

PureFlo™ Cable Drains

Completely modular, PureFlo rough drains let you choose from a basic rotary-handle trim kit or contemporary, traditional and Victorian designs with rotary and push handles. At any point in the life of the drain, the trim can be changed without accessing plumbing behind the bath or wall – perfect for remodeling. Rough drains and trim kits are sold separately.

Bask™ Heated Surface

Select baths are available with a heated back surface for additional spa-like comfort. Three adjustable temperature settings invite you to customize your bathing experience and immerse yourself in warmth and relaxation.

For bathers who prefer a deeply relaxing, gentle experience, we've designed two unique hydrotherapies. VibrAcoustic® hydrotherapy combines the ultimate in bathing comfort with sound-wave vibration to achieve relaxation that literally resonates deep within the entire body. Effervescence hydrotherapy delivers an utterly divine combination of water and air that envelops the body with sensory delight. To help you determine which is the right hydrotherapy for you, we've outlined the features and benefits of each on pages 32-35.

KOHLER® BubbleMassage baths are available in a wide array of colors. See pages 128-141 for details.

KOHLER® whirlpools deliver powerful directed massage, providing real solutions for unwinding and revitalization, and encouraging a sense of increased well-being. To help you determine if a whirlpool is the right hydrotherapy for you, review the features and benefits listed on pages 38-39 and watch our hydrotherapy videos at [KOHLER.com/Bathing](https://www.kohler.com/Bathing).

We encourage you to use the following charts and indexes to compare the full bathing product line and determine which product meets your needs.

It may be helpful to select your hydrotherapy first from pages 30-45, and then choose the style and size of your bath from the corresponding product portfolio pages. At that point, our charts will provide additional details as you make your final selection.

If you still have questions, we invite you to talk with your nearest showroom representative and visit us online for more information.

Glossary of Terms

Acrylic

A strong material used in manufacturing KOHLER® baths. Acrylic can be pressed into a range of sizes and shapes and resists chipping and cracking.

Bath Pillow

A small waterproof pillow designed to provide comfort and support for the head and neck while bathing.

Chromatherapy

A color experience designed to enhance bathing. Bathers may choose an 8-color spectrum that washes over the body in a repeating one-minute sequence or may choose to rest on any one of the colors of the sequence.

Floating Remote Control

A remote control that floats in the bath or whirlpool making it easy for reclining bathers to operate and adjust hydrotherapy features.

Integral Apron

A decorative panel that covers the exposed front of an alcove bath, air bath or whirlpool. Integral aprons are built into the design of one-piece baths, air baths and whirlpools.

ADA-Compliant

A product designation that indicates the product will comply with the Americans with Disabilities Act when installed per the requirements of the accessibility guidelines of the 2010 ADA Standards for Accessible Design for the appropriate product or component category.

Bodyssage Backjet System

A series of ten KOHLER backjets that massage two by two, targeting the lower back, shoulders and neck, and moving up and down in sequence.

Drop-In

A bath, air bath or whirlpool with self-rimming edges designed to rest on top of the surrounding tile, stone, laminate or other surface.

Footstop

A weighted pillow that can be positioned at the base of a bather's feet or under the thighs to ensure comfort in larger baths.

KOHLER® Enameled Cast Iron

A material made in part with recycled iron that is poured into castings, cooled to a solid state and then reheated, covered with a powdered glass mixture and fired to a smooth, high-gloss enamel finish.

Alcove

A bath, air bath or whirlpool designed to be installed within a two- or three-wall alcove. These baths and whirlpools feature integral flanges for tile-in installation and, often, an integral apron.

BubbleMassage™ Hydrotherapy

An air bath technology patented by Kohler. A pump blows air through more than 100 airjets positioned 360 degrees around the interior of the bath. BubbleMassage hydrotherapy features a range of intensity settings.

Effervescence

A gentle whirlpool technology. A pump blows air through 8 to 10 specially designed ports that release champagne-like bubbles.

Freestanding

A bath that is mounted on the floor, remote from adjacent walls to allow access from multiple sides.

Lithocast® Material

A premium acrylic material that can be cast into unique bath designs. The texture looks like stone, but feels warm against the body.

Massage Whirlpool Package

A premium whirlpool package that includes whirlpool jets, Bodyssage backjets and neckjets.

Neckjet Pillow

A factory-installed pillow for a whirlpool with two integral jets that pulse alternately from left to right at the back of the neck.

Relax Whirlpool Package

A premium whirlpool package that includes Effervescence and chromatherapy.

Spa/Massage Whirlpool Package

A premium whirlpool package that includes whirlpool jets, Bodyssage backjets, neckjets, Effervescence and chromatherapy.

Spa Whirlpool Package

A premium whirlpool package that includes whirlpool jets and Effervescence.

Tile Flange

A flat, vertical rim along the edge(s) of a bath or whirlpool that attaches directly to the studs and is covered over by tile or a wall surround to help prevent water from seeping behind the bath, tile or surround.

Under-Mount Bath

A bath, air bath or whirlpool designed to be installed by mounting the deck of the bath or whirlpool to the bottom of your choice of deck material.

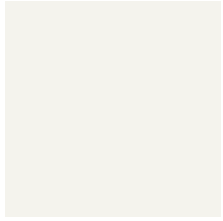

VibrAcoustic® Technology

A bathing experience that adapts the science of sound therapy using special speakers hidden behind the shell of the bath to emit sound vibrations that resound throughout the body. VibrAcoustic includes four preprogrammed musical compositions, an aux port for playing a smartphone, tablet or MP3 player and Bluetooth for streaming wirelessly.

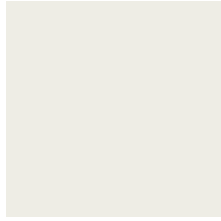

Zones of Control™ Feature

A technology developed for BubbleMassage™ baths that allows bathers to alternate bubble action between three different areas for a concentrated massage on the back, legs or feet.

Thank you.

If you'd like to learn more about Kohler and our complete product offering, we invite you to take a look at our literature, visit us online or stop by a KOHLER® Showroom.

Literature

Concise and easy to use, our full-line category books inspire you to create beautiful spaces and guide you through choosing kitchen and bath products that are right for you and your home.

In addition, *bold* features ideas we're passionate about, the latest introductions to the KOHLER kitchen and bath lines, as well as a selection of our timeless, classic offerings.

View the full magazine at KOHLER.com/LiteratureStore. There you can download additional category books and brochures. KOHLER literature also can be ordered by calling 800-4-KOHLER.
